

A Smarter Way to Assess Organizational Readiness

For over 30 years, OpusWorks has supported organizations in aligning training and execution with performance metrics that matter. In 2025, we elevated cultural transformation with the launch of our Assessment Engine — a dynamic tool embedded in the OpusWorks Deployment Platform.

Why Assessments Matter?

Sustainable improvement requires more than training and projects -- it demands insight into the behaviors and culture that drive performance. Our Assessment engine delivers that insight with precision and action ability.

Key Capabilities

- **Versatile Measurement**
Assess behaviors, leadership styles, maturity levels, and more.
- **Flexible Formats**
Likert, forced choice, reverse-scored, perspective, and more.
- **Multi-Level Feedback**
Individual, group, and organizational insights.
- **Algorithm-Driven Scoring**
Configurable and consistent.
- **Seamless Distribution**
QR codes, links, embedded flows, and role-based targeting.
- **Real-Time Dashboards**
Make culture visible and actionable.

Strategic Impact

- Diagnose cultural readiness across teams and locations
- Guide targeted training, mentoring, and leadership action
- Sustain engagement with immediate, constructive feedback
- Empower leaders with data-driven visibility into organizational culture

Empowering Better Every Day

OpusWorks has partnered with organizations across industries to drive disciplined improvement, cultural transformation, and measurable results. Our mission is simple: help companies become better every day – through smarter technology, scalable solutions, and a relentless focus on value creation.

Why OpusWorks Leads the Pack

- **Integrated Deployment Platform**
Training, project execution, and performance tracking — all in one seamless ecosystem.
- **Innovative Learning Solutions**
From Lean Six Sigma to Agile, our tools support continuous learning and real-world application.
- **Scalable Technology**
Built for global enterprises and local teams alike, with flexible delivery and configuration.
- **Data-Driven Insights**
Real-time dashboards and reporting turn information into action.
- **Culture-Centric Tools**
Our new Assessment Engine brings visibility to the behaviors and mindsets that drive success.

"OpusWorks helped us rapidly scale our improvement initiatives across the enterprise. Their platform gave us the structure, visibility, and confidence to lead change effectively."
