Why an OpusWorks MBB?

The OpusWorks Institute – an unparalleled team of seasoned MBBs from every industry as content developers, instructors, and mentors

30 years of success training and developing CPI practitioners, including Green Belts and Black Belts

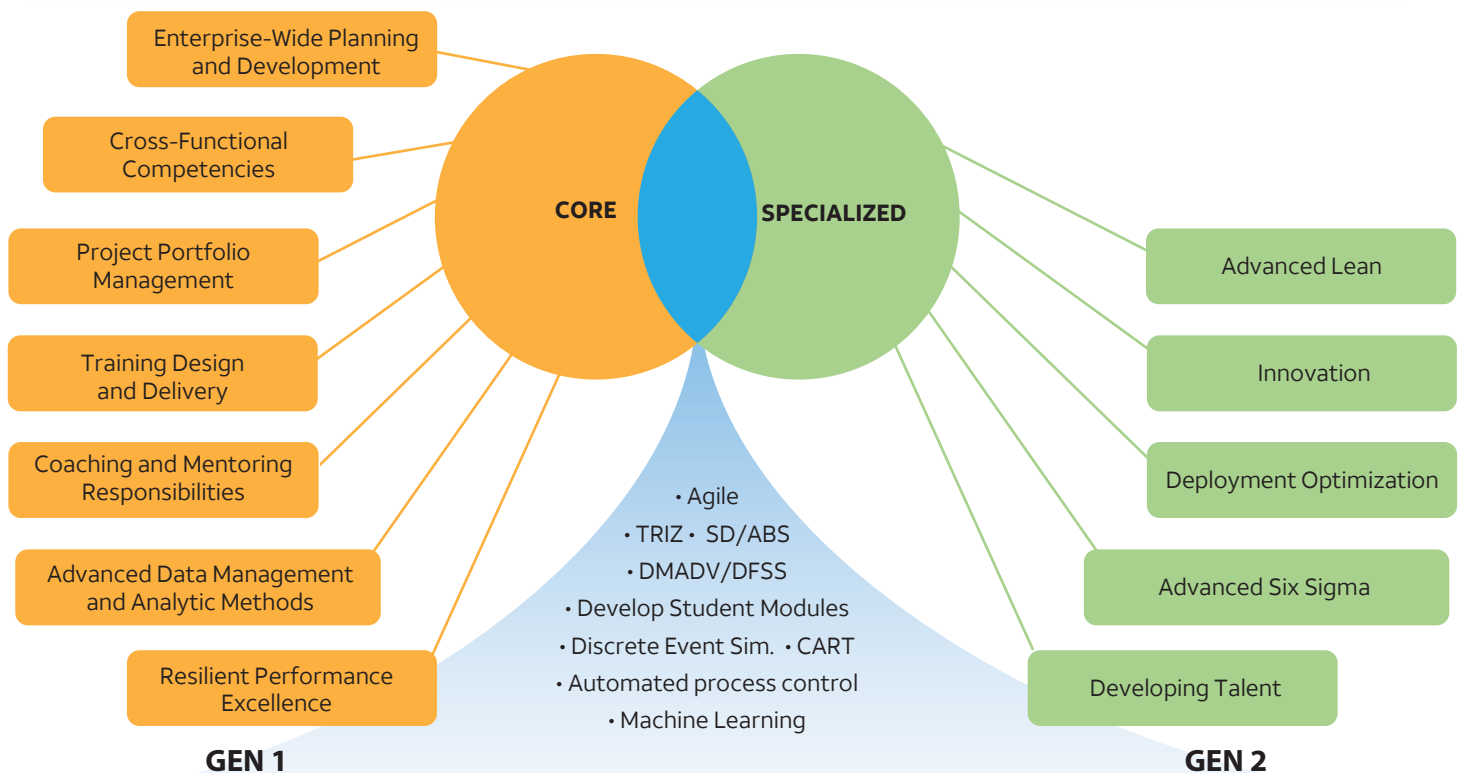

A curriculum created utilizing Six Sigma DFSS

A model that is:

- Aimed at developing resilient MBBs, prepared to thrive in an ever-changing world
- Not one-size-fits-all but modular, including opportunities for specialization based on the individual's their organization's interests and needs

Content that is:

- More practical than theoretical with Learning Objectives linked to demonstrable, measurable capabilities
- Less focused on advanced statistics and more on soft skills such as leadership and innovation
- Based on an understanding of CPI leadership that transcends project and deployment leadership to include change and thought leadership
- Inclusive of advanced Lean Six Sigma but also many other established and emerging tools and methods such as Design and Systems Thinking, TRIZ, and HRO
- IACET accredited. CEUs will be awarded for the course.

Who Should Apply?

The course is designed with an innovative perspective, with practical scenarios of great added value for tenured Lean Six Sigma Black Belts. Because the course has rigorous academic requirements, students need to be sure, before enrolling, that they:

- **Are validated by their sponsoring organization as a certified Black Belt.**
- **Have a project portfolio, including affidavits, of at least 5 completed DMAIC or DFSS project.**
- **Can discuss 2 projects, in detail, with the OpusWorks Institute Review Board.**
- **Have demonstrated certified Black Belt experience:**
 - Teaching, coaching and mentoring projects.
 - Teaching experience in the use of LSS BB BOK.
 - Teaching Lean Six Sigma at mid or senior level.
- **Know the ASQ BOK and can score at least 80% on the OpusWorks MBB pre-enrollment exam.**
